DIRECTOR'S MESSAGE

Azam Ghani

Founder AND Director
World Finance Council
World IT Forum

Director's Message for WFC 2024 and WIT 2024 Singapore

Dear Esteemed Colleagues and Friends,

It is with great enthusiasm that I extend a warm welcome to Singapore, a city renowned for its innovation and progress. It is ranked among the top five Fintech hubs in the world and serves as a beacon in the heart of Asia. As the Director of the World Finance Council, I am honoured to invite you to the 5th World Finance Council FinTech 2024 Singapore and the World IT Forum 2024 Singapore.

These two distinguished events unite the brightest minds in finance and technology, set against Singapore's unique blend of Eastern and Western influences. This vibrant metropolis, a hub of cultural diversity and technological advancement, offers the perfect environment for groundbreaking discussions and exchanging pioneering ideas.

This year's agenda promises to inspire and challenge the global FinTech and IT communities. At WFC FinTech 2024, attendees will delve into forward-thinking topics such as "The Convergence of IoT, AI, and Edge Computing," unravel the complexities of "Code Crusaders: Building the Future of Finance, One Line at a Time," and explore the synergies between "FinTech's, Banks, and Ecosystems." Moreover, the transformative potential of "Open Banking and Open Finance" will be a focal point, fostering deep engagement with thought leaders on these crucial subjects.

Simultaneously, WIT Forum 2024 Singapore will present the latest technological breakthroughs and their profound implications for our world. Sessions will include "AI and Humanity: A Path to Ethical and Inclusive Intelligence," which will address the future of connectivity, and "Exploring the Capabilities and Limitations of LLMs: From Text Generation to Real-World Applications," which will explore the ethical dimensions of modern technology. These discussions are poised to pave the way for a more connected, secure, and innovative global landscape.

Our mission is to provide unparalleled platforms for exchanging ideas and knowledge among professionals worldwide. Your participation is invaluable, enriching these dialogues and propelling the industry forward. Whether you are a FinTech pioneer or a technology trailblazer, our events empower you with critical insights, foster meaningful connections, and equip you for success in these rapidly evolving fields.

I would like to extend my deepest gratitude to our partners for their unwavering support, which enables us to uphold the highest standards of professionalism and ethics. Special recognition goes to our local partners in Singapore for their dedication to making these events extraordinary. Additionally, I extend heartfelt thanks to our attendees, media partners, and distinguished speakers, whose contributions are pivotal to the success of these forums.

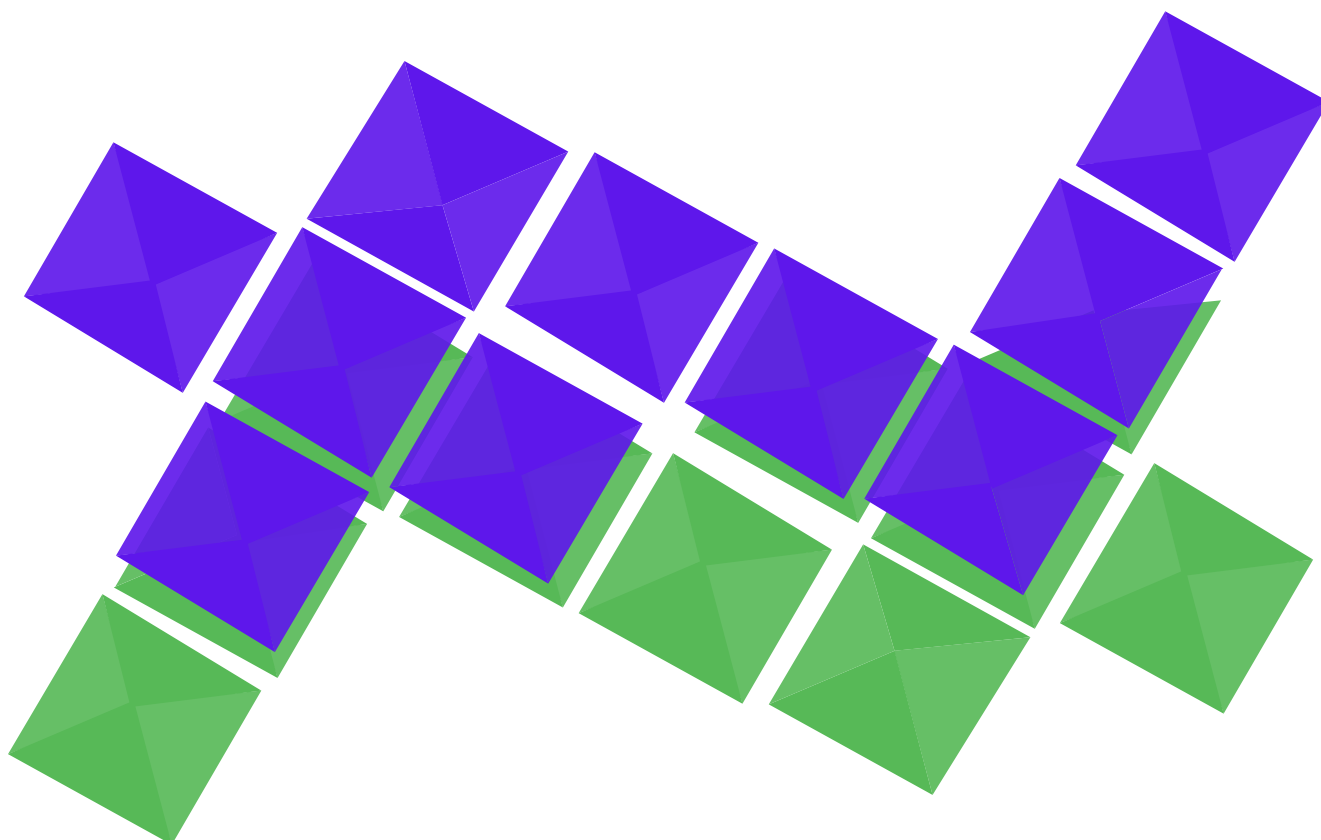

Prepare yourself for an unforgettable experience as we, alongside esteemed speakers and panellists, explore the limitless possibilities in finance and technology. I eagerly anticipate meeting each of you and collaborating to elevate the FinTech and IT industries to unprecedented heights.

See you in Singapore!

Warm regards,

Azam Ghani

Director, World Finance Council &
World IT Forum

The Future of IT: Sustainable, Seamless, Supported by Cinch

What we do

Cinch is a **Device As A Service (DaaS)** that's designed to empower companies to scale their business affordably and effectively. We want them to supply each employee with their hardware by providing innovative tools that optimize and automate the process with minimal upfront investment.

About us

We are a team of people who believe that we can make the process of **providing hardware easier through technology**. Before we worked on building companies gained deep specific knowledge on how the hardware leasing industry and technology should work together.

COMPANY PROFILE

A **Neo Investment Bank**, partner of first choice for growing businesses in India.

Aggregating capital raise opportunities across retail financing sectors like MSME finance, fintech, supply chain finance, microfinance, vehicle finance, housing finance, leasing, EV financing, and sustainable financing.

Gateway to the world of Capital Markets: Discover capital that can transform your business. Open avenues to meet your growing capital requirements.

Capital Solutions Simplified: Simplicity is the ultimate sophistication. We offer simple and customized capital solutions for your business needs.

Product and Service Stewardship: The journey of capital flow is complete only after the end needs of both the investors and enterprises are met. We offer a comprehensive product suite (securitization, debenture issuances, commercial paper issuances, term loan, guarantee backed borrowings, etc) with end-to-end service stewardship.

THE TEAM

- » Led by founders that have over a decade of experience in the capital market space, underwritten over 500 businesses, scaled up investment portfolios to the tune of USD 10 billion.
- » Driven by a team that has weathered multiple market cycles, credit events, and over the years played a key role in expanding the securitization market beyond the entities in the higher end of the rating spectrum.
- » Bringing together the best of technology, underwriting, portfolio risk management, advanced analytics and the practices of traditional investment banks.
- » Forging long term partnerships with multiple investors & originators including portfolio curation & advisory across debt products.

WHY CAPITAL STACK?

FOR INVESTORS:

- ✓ Capital Stack provides curated access to unique investment opportunities in performing credits with stable risk-adjusted returns and low correlation to other asset classes.
- ✓ Get access to a comprehensive capital market product suite with diversified investment options.
- ✓ Miles ahead in passion, commitment and quality of service.

FOR ENTERPRISES:

- ✓ When you choose Capital Stack, you partner for sustainable growth and scale. We will help you unlock the transformative power of capital.
- ✓ Capital market expert you need in every step of the way to your business growth.
- ✓ We help you shift your game from managing treasury to mastering treasury.

CapStack Private Limited

Exotic “RWA”, Real World Asset Tokenization

The New Era of Real Estate Development, The advent of real-world asset tokenization is revolutionizing the real estate industry, marking the beginning of a new era in property development. Yalla Limited partnered with BridgeMint, has pioneered a comprehensive tokenization platform designed to meet global regulatory standards for real-world asset (RWA) tokenization. Initially focusing on Europe, the platform is poised for global expansion. Emphasizing renewable energy sectors like solar tokenization and real estate, the platform provides a holistic asset management solution for property developers.

*Dereck Hoogenkamp @dhoogenkamp has been speaking across the world and is a true leader in The New Age Holistic Real Estate Development. A conscious creator with focussing on True Impact.. Yalla Limited's platform seamlessly integrates traditional and innovative solutions, including advanced payment systems, Know Your Customer (KYC) protocols, Anti-Money Laundering (AML) measures, and an efficient onboarding and uploading system. The platform also features a robust broker and referral management system, making it an invaluable tool for property developers. Leveraging the latest technologies such as smart contracts and blockchain, eventhough the platform remains blockchain agnostic, ensuring flexibility and adaptability in a rapidly evolving digital landscape. By bridging the gap between traditional asset management and the new era of asset management and mergers and acquisitions (M&A), Yalla Limited's / BridgeMints platform represents a significant leap forward. There is a strong focus on being Fully Regulated, since the bridge between the Traditional world and the New era needs to be seamless and fully compliant.

Business relationships are based on discretion, confidentiality, high ethics and reputable business practices. We possess an excellent track record of successfully dealing, advising and transacting with private equity companies, asset management firms, off-market private real estate transactions and M&A. We have an impeccable track record in investing, protecting, developing and delivering wealth for our clients. We also work hand in hand with a network of strong partners through diverse investments in the innovation and technology sector..

A Global Real Estate company. helping Property Developers with international Roll-outs, PR, Sales, Marketing, Business Development, Re-Organization, Cryptocurrency and Implementation of Blockchain technology across all sectors.

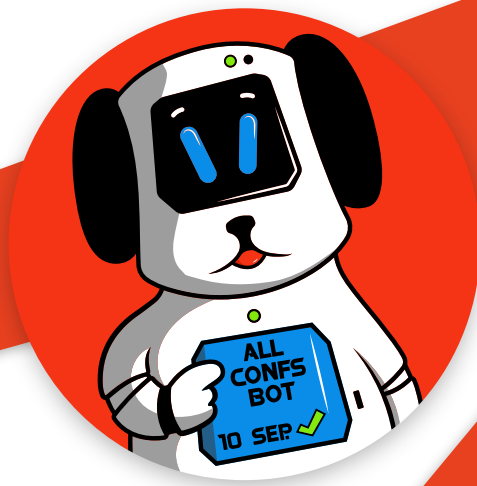

A Track record in successful Mixed-Use Real Estate projects, creating New Destinations, Establishing and/or restructuring Property Developers and Asset Managers, re-organizing, and implementing the latest Go-to market strategies.

New ways of living, working & playing. Creating lighthouses for the future of humanity and will provide endless opportunities for our global community to come together and live an abundant life or to create masterpieces in high-vibrational environments. Uniting lands, developers & architects together with tokenized real estate assets & digital twins of physical spaces, bridging realities.

(Eco-Resorts, Smart Villages)

The consortium stands out not only for its focus on wellness, rejuvenation, and anti-aging real estate projects, all of which have a significant positive impact on creating a better world, but also for its dedication to preserving heritage, culture, and nature. A prime example of this commitment is The Temple Hunter initiative, which aims to preserve Thai heritage, educate the public on Thai culture, and integrate Buddhist lifestyle and teachings into property developments. This holistic approach ensures that progress and tradition coexist harmoniously, fostering a deeper connection to the cultural roots while promoting sustainable development.
