A Legacy of Leadership

WFC FINTECH 2025 DUBAI

AZAM GHANI

Founder and Director
World Finance Council

Dear Esteemed Colleagues and Friends,

It is with great pride and excitement that I extend a warm welcome to the **6th WFC FinTech 2025 Dubai**, taking place in the dynamic city of Dubai at the renowned **Pullman Dubai Creek City Centre** on **January 29, 2025**. This event stands as a cornerstone for innovation, collaboration, and visionary leadership in shaping the future of finance.

Our meticulously curated agenda addresses the most significant challenges and opportunities defining the global FinTech landscape. From transformative discussions on Blockchain, Crypto, and Financial Inclusion to the integration of AI and emerging technologies, the program is designed to inspire innovative solutions. We'll also explore critical trends in Finance & AI strategies, branding and marketing for FinTech professionals, and the evolving landscape of data privacy and compliance. These sessions promise to equip attendees with actionable insights to tackle today's multifaceted financial challenges.

The event boasts an exceptional lineup of speakers—distinguished leaders and experts in FinTech and the Future of Finance—who will generously share their knowledge and real-world experiences. Their perspectives will empower attendees to adopt cutting-edge practices, driving growth and fostering innovation within their fields.

I would like to take this moment to express my heartfelt gratitude to all our supporters, whose unwavering commitment has been instrumental in the success of these events. Your contributions continue to pave the way for advancements that shape the trajectory of our industry.

As we gather in Dubai, a city synonymous with ambition and innovation, I encourage you to fully immerse yourself in this unparalleled experience. Engage in meaningful dialogue, forge enduring connections, and leave with fresh perspectives and actionable strategies. Together, we can strengthen the global FinTech ecosystem and realize a vision of progress and excellence.

Thank you for being part of this landmark event. I look forward to connecting with many of you and wish you a productive, insightful, and inspiring experience in Dubai.

Warm regards,
Azam Ghani
Founder and Director
World Finance Council

THE SUNDAY TIMES

THE BUSINESS TIMES

Options

THE STRAITS TIMES

Securely Transfer your Digital Legacy in a Time Capsule.

Ensuring complete confidentiality and preserving data ownership with imperishable technology.

What is Time Guardian?
Time Guardian | Athar is a revolutionary app designed for secure and reliable digital legacy transfer across all media types, including texts, videos, photos, private keys, files, and contracts. Based in France, UAE, and serving customers globally.

What problem we address:
Individuals and organizations need solutions for data inheritance - Questionable data ownership. - Data dispersion & loss between several apps. - No viable solution to schedule transmission.
Businesses like insurance, legal, and financial institutions face challenges with secure, automated digital legacy management. Current solutions lack decentralization, risking breaches. We offer a decentralized, secure solution for digital legacy management, addressing privacy and reliability issues for all.

How we solve the problem:
Time Guardian | Athar offers a decentralized digital legacy management platform designed for businesses and individuals. Through blockchain technology, we ensure that digital assets are securely transferred using three unique protocols: **Date, Consent, and Will**. Our solution eliminates the risks of unauthorized access and delays, giving users full control and transparency over when and how their assets or legacies are passed on, providing peace of mind for businesses and families alike.

Key Features

Date protocol

Choose a date, from 1 day to 100 years!

Never worry about the passage of time. Thanks to Time Guardian, you can set a date or a countdown timer that triggers the sending of your capsule.

Consent protocol

1 Capsule, 1 Consensus

With Time Guardian, all you have to do is designate one or several trusted people who will trigger the transmission together.

The Will protocol

Your Legacy will live for eternity

Ensure your digital legacy is started out. Following your death, Time Capsule is designed to ensure that you are covered. Your instructions are then passed on.

Our Team: 

Our team brings over 100 years of combined experience, setting us apart in digital legacy management. CEO and co-founder **Amira Soliman** leverages extensive expertise in banking, fintech, and customer-centric strategies, while CTO and founder **Michael Caru**, a blockchain pioneer, ensures secure, decentralized solutions. Alongside **Alexandrine Tabou**'s operational insight and **Clément Levret**'s innovative design, we're uniquely equipped to lead and innovate in this space.

Traction matrix: **10,000** Users **3** Partnerships **\$40,000** Revenue ytd

Beta users: 10,000 since August 2024, with a current growth up to 1,000,000 users yearly, 15% ROI first year, and it increases up to 25%. Confirmed 3 b2b2c partnerships with Notaries, Payment Solutions, & Insurance company. Revenue Generated \$40,000 with Notaries. Revenue : through B2B2C partnerships with a \$100K setup fee per partner and a 40% margin share on user app downloads, feature pricing, and storage size. Revenue projection: \$0.85M in 2025, \$8.4M in 2026, \$16.8M in 2027, \$33.6M in 2028, and \$67.2M by 2029.

Target Segment: **B2B** **B2B** **B2B2C**

B2B: Biggest influence already talk about us!

B2B: Set up Fee starting 25K USD

B2B2C: Set up Fee \$100K + Margin share

Time Guardian | Athar targets businesses of all kinds looking to offer secure digital legacy solutions to their clients, focusing on a B2B2C model. This includes individuals and families who value legacy preservation and seek to safeguard personal memories. Our services apply to all kinds of people globally, making legacy management accessible to everyone, everywhere.

Our competitors:
Competitors include cloud services like Google, Amazon, and Apple, which collectively serve 196 million paying users, generating \$26.46 billion annually. Additionally, startups like Everplans, ParingWishes, TrustWorthy, and Vault12 in the sector of data transmission or storage have reached Series A and B funding and have been acquired within 5-8 years.

Our competitive advantage:
Our competitive advantage lies in its fully decentralized architecture, Web3, ensuring users maintain control over their data without third-party intervention. Our user-friendly interface, coupled with robust encryption and the ability to program digital legacy transmissions, sets us apart. Unlike competitors, we prioritize privacy, security, and user empowerment, catering to a global audience.

What we ask:
We are asking for your collaboration and partnership.

Amira Soliman
